# Having trouble?

Here are the steps to using your new lockscreen:

1. Download the ePUB file to your computer
2. Go to [www.amazon.com/sendtokindle](http://www.amazon.com/sendtokindle) and send the file to your device library
3. Make sure you've enabled "show covers on lock screen"
4. Click on the file before you lock your device to display your screensaver!

**NOTE: This will only work on ads-free devices.**
